Enhanced Canopy/Parking Garage Fixture

Product Description

Quick to install and pay for itself, the Enhanced Canopy/Parking Garage fixture is an economical retrofit solution for 70-250W HID garage and canopy luminaires. Offered in five wattages, both CCT and wattage selectable, with a single lens that meets both parking garage and canopy distributions, the CPL can address a variety of canopy lighting needs. The series comes standard with an internal c-Max control receptacle which allows for a variety of c-Max controls to be field installed (sold separately). The luminaire also features a single screw design that allows access to the fixture interior within seconds for quick and easy surface conduit connections or c-Max controls installation. In addition factory installed battery backup, 480V and White finish options are available. For Canopy/Parking Garage applications, this family makes it easy!

Features

- Integrated/Embedded c-Max controls capability or factory installed Avi-On option
- Quick and easy access to interior with single screw and hinge design for conduit connection and controls installation
- CCT selectable between 3000/4000/5000K
- Wattage selectable on 60W version
- Universal 120-277V standard, High Voltage 277-480V option
- 4kV + 10kA surge protection standard, option for higher 20kA protection
- TAA compliance available - contact Maxlite for details

Warranty

- 10 year standard
