

Ionization Smoke & Fire Alarm

9 Volt Battery Operated

Model 976LR

Protects Against

Responds Quickly To
Fast Flaming Fires

Universal® battery operated smoke & fire alarms offer effective and trouble-free protection. The National Fire Protection Association recommends installation of smoke alarms in every bedroom, in the hallway adjacent to the sleeping areas, and on every level of your home. This alarm is suitable for installation in houses, apartments, dormitory rooms, and mobile homes. Choose this alarm if you are looking for an ionization alarm with improved nuisance alarm resistance.

Features

Benefits

Quick Change® battery feature	Makes battery installation simple & provides reverse polarity protection
Battery guard	Prevents alarm installation without a battery properly installed
Single silence/test button	Temporarily quiets a nonemergency alarm and tests alarm functionality
Audible low battery indicator	Warning reminder sounds for up to 30 days
Tamper resistant locking feature	Prevents unauthorized removal of alarm
Fast and easy to install	No wiring required
Battery included	9 volt super heavy-duty battery
