## ELYRTD3

LED Retrofit Troffer Kit | 2x2 & 2x4  
50,000 Hour System Lifetime  
5-yr Warranty

## OVERVIEW

Energetic Lighting's ELYRTD3 LED retrofit troffer kit is a low cost, time-saving alternative to complete fixture replacement for customers looking to upgrade their existing fluorescent luminaires with today's innovative and energy saving LED solutions. Access above the drop ceiling plenum is not required during installation which saves time and allows for a cleaner installation by not disturbing dust and insulation above the ceiling. Our retrofit kit can be installed by a single person in under 5 minutes vs. a typical 20 minute complete fixture replacement. Aesthetics and illumination are improved with the center basket design's use of a diffused lens to help deliver soft and uniform ambient lighting. We utilize the latest performance LEDs with drivers rated for 50,000 hours of use, backed by a 5-year warranty.

Our ELYRTD3 LED retrofit troffer kit provides the perfect blend of design, performance and reliability at a superior value that is ideal when upgrading the lighting in commercial office & retail spaces, schools & universities, hospitals and more.

## KEY FEATURES

- Designed to retrofit most existing 2x2 or 2x4 troffers
- Utilizes existing housing to save time & eliminate waste
- Plenum access not required for retrofit installation (complete installation done from room-side access)
- Modern center basket design aesthetic
- High efficiency acrylic diffusing lens for no pixelation
- Utilizes 0-10V, 50,000 hour rated drivers standard
- 87% lumen maintenance @ 54,000 hours - L87/54,000 (per IES TM21)
- Projected L70 @ 133,000 hours (per IES TM21)
- Available in 4000K @ 82 CRI
- 3240 lms (2x2) @ 128 LPW, 3335 lms @ 131 LPW (2x4)
- All configurations are DLC Premium qualified
- Optional integrated emergency battery pack

## SPECIFICATIONS & FEATURES

### Construction

Retrofit kit door frame and reflector assemblies are made from die-formed cold rolled steel. All painted components are high reflectance white powder coat for improved optical performance and visual aesthetic. Contractor friendly design allows for complete installation from room-side access. Plenum access not required for installation. LED boards and drivers are easily accessed from below. Minimum 3.0" depth required for proper installation and clearance.

### Optics

Uniform horizontal and vertical illumination is achieved by the coupling of the LED platform with a performance reflector system and high efficiency curved extruded acrylic diffusing lens. The optical system creates a soft and uniform visual appearance with no LED pixelation for superior visual comfort.

### Electrical

Efficient long life LED platform is coupled with 50,000 hour rated drivers to help deliver optimal performance and quality illumination for the extended life of the luminaire. 87% LED lumen maintenance at 54,000 hours (L87/54,000) per IES TM21. Projected L70 @ 133,000 hours. Drivers are available for 120-277V applications and are 0-10V dimming compatible standard.

### Emergency Battery Pack Option

Optional integral emergency battery pack is available in 8-watts for 120-277V use to meet required life-safety requirements (25° C max ambient). The battery system provides 90-minutes of continuous power to the LED system for code compliance. Test switch and indicator light is located on the front reflector. Multiply the lumens per watt of the specified SKU by 8-watts of the battery pack for the approximate delivered lumens. (Ex. 130 LPW x 8-watts = 1040 lumens)

### Compliance & Certification

All luminaires are built to UL1598 standards with appropriate UL/cUL labels. Suitable for damp location use. Emergency fixtures are labeled UL924 and are dry location only. Maintains insulation contact (IC) rating of existing fixture. Adheres to LM79, LM80 and TM21 industry standards for performance and lifetime calculations. DesignLights Consortium® (DLC) qualified product. Refer to DLC website at [www.designlights.org/QPL](http://www.designlights.org/QPL) to confirm which specific product configurations are qualified.

### Warranty

The ELYRTD3 series of luminaires have a 5-year standard warranty. (Terms & Conditions apply).

### Installation & Fitment Compatibility

The ELYRTD3 retrofit kit series was designed and engineered to upgrade parabolic recessed 2x2 and 2x4 troffers from most major lighting manufacturers. See dimensional information below (it is recommended that a trial sample is test installed prior to purchasing project quantities).

After original existing fluorescent components are removed from the original luminaire, the universal retrofit brackets are installed and secured using the supplied screws. The retrofit assembly can be hung to the universal brackets for easy wiring and final installation steps. Always follow the installation instructions for added detail and safety information.

### Load Information

Power Factor	0.90
THD	10%
Low Temp	-20° C
Max Temp	50° C
Unit Weight <sup>1</sup>	8.5 lbs (2x2), 13.5 lbs

### Shipping Information

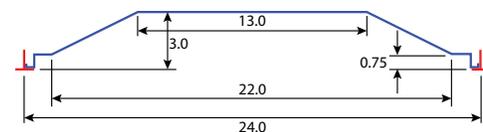

Size	Weight <sup>1</sup>	Pallet (54"l x 40"w x 79"h)
2x2	11 lbs	68 per
2x4	18 lbs	34 per

<sup>1</sup>. Add 1.0 lbs for emergency battery option.

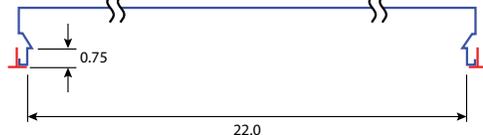

<sup>1</sup>. Add 1.0 lbs for emergency battery option.

### Fitment Dimensions

Notes:

1. 0-10V dimming driver standard, leads are capped from the factory, dims to 10%.

**STOCK ORDERING INFORMATION (emergency battery pack options)**

Catalog Logic	Order #	Size	Lumens	Wattage	LPW	Color Temp	CRI	Voltage	Dimming	DLC	Pallet Qty
ELYRTD3E-2X2CD <sup>1,2</sup>	60023	2' x 2'	3240	25	128	4000K	82	120-277	0-10V <sup>3</sup>	Premium	68
ELYRTD3E-2X4CD <sup>1,2</sup>	60025	2' x 4'	3335	25	131	4000K	82	120-277	0-10V <sup>3</sup>	Premium	34

Notes:

1. The emergency battery system provides approximately 8-watts of continuous power to the LED system for code compliance (25°C max ambient).

2. Approximate delivered lumens in emergency mode: 8-watts x 128 LPW = 1024 lumens (2x2), 8-watts x 131 LPW = 1048 lumens (2x4).

3. 0-10V dimming driver standard, leads are capped from the factory, dims to 10%.
