

Product Description

The 25W adjustable head LED security light is easy to install and offers two distinct modes. In Motion Sensor Mode, the light stays off during the day and turns on at night only when motion is detected. In Dusk to Dawn Mode, it remains illuminated throughout the night, regardless of motion, and automatically switches off during the day.

Features:

- Motion Sensor: 180° detection angle with a range of up to 70ft, and adjustable detection duration (30S/60S/120S).
- Adjustable Beam Angle: Each head can be adjusted from a narrow 30° to a wide 80° beam angle, allowing for customized lighting coverage.
- Color Temperature: Produces 5000K daylight white light.
- Brightness: Delivers 2500 lumens of light with a power consumption of 25W.
- Durability & Safety: Constructed with a sturdy aluminum body and ETL certified for safety, with an IP65 waterproof rating, suitable for wet locations.

Installation:

- Direct Wall Mount

Construction:

- UV Stabilized Polycarbonate

Listings:

- ETL for Wet Locations
- FCC
- IP65

ORDER CODE	MODEL NUMBER	DESCRIPTION
112883	MSL2HAL	SECURITY LIGHT WITH MOTION SENSOR, ADJUSTABLE BEAM 2 HEAD, 25W, 120V, 5000K, BLACK FINISH

Specifications:

Power Consumption (W)	25W
Lumens (lm)	2,500 lm
Efficacy (lm/W)	100 lm/w
CRI	>80
Color Temperature (K)	5000K
Voltage	120V
Lumen Maintenance (L70)	50,000 hrs
Mounting	Wall
Lens	UV Stabilized polycarbonate
Operating Temperature	-20°C/-4°F - 40°C/104°F
Weight	1.15 lbs
Listings	ETL, FCC
Warranty	5 Year warranty. Check maxlite.com/warranties for details
